SPACIOUS BACK YARD

Casual Vintage Charm!

This split-level Westover Hills gem offers all the charm and character of its original 70's architecture, but with plenty of updates to give it a modern-day twist! Enjoy two large living areas that give you and your guests or family plenty of room to roam, as well as a formal dining area and bright, cheery eat-in kitchen. All three of the very spacious bedrooms are tucked up a small flight of stairs and away from the main home for added quiet and privacy. The primary, hall, and half baths have all been beautifully renovated in a contemporary style that blends into the overall retro feel of the home. And now that spring is here, you can take the gathering outdoors into your large, lush, tree-filled backyard with its ample deck and patio space. The landscaping throughout the entire yard tops things off and creates a relaxing and peaceful retreat that you won't want to leave!
